Do you ever think  
everything old is  
new again?

More and more these  
days, I see advertisements

for “new” things that have actually been around since I  
was a child. From milk in glass bottles to redesigned clas-  
sic cars, companies seem to be using today’s technology  
to make everything old new again.

As I reflect on C&T’s 32 years in publishing, I can’t help  
but think the same is true for us. We’ve come full circle  
since we first started in 1983, and though the way we do  
business has changed, our goal of providing exceptional  
books and products to quilters and fiber artists has not.  
This season, I am thrilled to announce that we are  
teaming up with quilting icon Marci Baker to publish  
and distribute a variety of products, showcasing her  
creative talents to quilters around the world. Now you  
will find her best-selling tools and books in our catalog.

Also in this catalog, you will find exciting new releases  
from Alex Anderson, Piece O’ Cake Designs, Amanda  
Murphy, Mary Mashuta, Natalia Bonner, Harriet Har-  
grave, and many other talented authors, each bringing  
fresh ideas and inspiration to the centuries-old tradition  
of quilting.

We are always sharing and communicating with you  
through social media, and we invite you to join the con-  
versation on Facebook, Pinterest, Instagram, and Twitter.

#### TOOLS

##### PRESSING HAM

**WHAT IT IS:** Also called a tailor's ham, this is a curved and stuffed iron shaped like a ham. It is a lot like a pin-cushion but is much larger and is designed to assist with ironing curved and bumpy during the sewing process.  
**WHAT IT DOES:** One side of the ham is covered in heavy cotton and the other is used as you rest those stubborn side matches the fabric you're working on.  
**WHY USE IT:** This is especially useful when pressing over darts, curved hemlines, cap sleeves, and even gathers at the waist, sleeve, or cuff.

##### SEAM ROLL

**WHAT IT IS:** Ideal for pressing seams, this is similar to the pressing ham but is a long tube that is firmly stuffed and rounded at both ends.  
**WHAT IT DOES:** Because of its shape, the garment falls away from the seam edges while ironing.  
**WHY USE IT:** Prevents steam imprints on the right side of your work. It is especially useful when ironing sleeves and pant legs.

##### CLAPPER

**WHAT IT IS:** A tailor's clapper is used to help set seams into the fabric.  
**WHAT IT DOES:** After applying steam and a hot iron to fabric, use the clapper to press down firmly on the fabric, retaining the heat and setting the steam into the fabric.  
**WHY USE IT:** It allows you to press down on the fabric for a longer time without removing the risk of burning it with the iron. It is also useful for flattening bulky seams of fabric like knits or seams.

##### POINT PRESSER

**WHAT IT IS:** A point presser is sometimes attached to a clapper and is a sharp-edged iron that aids the ironing of enclosed seams and tricky corners.  
**WHAT IT DOES:** The fabric corner or point is aligned over the wooden point on the presser so that you can iron directly on the presser. You can also use this for pressing seams, simply slip the seam wrong side up on the presser and press it open.  
**WHY USE IT:** Use it to neatly press pointed corners and avoid imprints and creases on the rest of the fabric.
